FULL **COLOR** WIDE FORMAT MFC

COLOR COPYING PRINTING AND SCANNING

The Savin MP CW2200 Color Wide Format Multifunctional Product (MFP) is an exciting system that takes Savin's wide format product line to new heights. Designed as a versatile low-volume color digital solution, the MP CW2200 offers CAD-centric environments all of the document creation, capture, storage and distribution tools that they require – right out of the box. This versatile MFP supports color copying, printing and scanning of virtually any large-format technical document – design plans and schematics, as well as color display signage, poster and maps; no options required.

As the ultimate 3-in-1 wide format MFP, the MP CW2200 eliminates the need to integrate a separate color scanner and/or printer, saving space and reducing carbon footprint. The Energy Star compliant MP CW2200 also incorporates the latest advances in inkjet print technology. This water resistant, pigment-based engine produces exceptionally clear, crisp monochrome and full-color drawings, text, lineart, graphics and photographs, on virtually any media, including plain, coated, recycled, inkjet and tracing paper. For operational simplicity, the MP CW2200's user interface, print drivers and device management tools are based on the same open architecture as Savin's complete line of office systems. Collectively, this offers you exceptional *productivity, image quality, usability, economy and security.*
